# Select 3-Tier 2026 Prescription Drug List

Call Member Services at (888) 333-4742 (TTY: 711)

Visit [harvardpilgrim.org/rx](https://www.harvardpilgrim.org/rx) to:

- Locate a participating retail pharmacy
- Look up possible lower-cost medication alternatives
- Compare medication pricing and options

This list is subject to change at any time. Created: October 1, 2025

Harvard Pilgrim Health Care includes Harvard Pilgrim Health Care,  
Harvard Pilgrim Health Care of New England and HPHC Insurance Company.

### About Harvard Pilgrim's formulary

Harvard Pilgrim's formulary is a list of therapeutically safe and effective medications for treating most common medical conditions. The list is continually updated to incorporate the most recent decisions of Harvard Pilgrim's Pharmacy Services Department and our Pharmacy & Therapeutics Committee.

### Harvard Pilgrim's Select 3-Tier Prescription Drug Program

Covered medications are categorized in one of the three tiers described below. Our tiered benefit structure encourages patients and physicians to discuss pharmaceutical treatment options and choose the drug that is therapeutically appropriate. This kind of patient/physician dialogue is an important component in promoting quality, cost-effective care.

### How do I use my Select 3-Tier Prescription Drug List?

The following list is alphabetical, with a coverage indicator listed to the right of the drug name. To find out how we cover a drug you are currently taking:

1. Under "Drug," look up the name of your medication.
2. Once you find the medication, check the coverage indicator to the right of the drug name.

| Coverage indicator     | Description                                                                                                                                                                                                                                                                                                                                                                                                    |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>\$0</b>             | Drug may be covered without member cost sharing for some benefit plans.                                                                                                                                                                                                                                                                                                                                        |
| <b>Tier 1 (\$)</b>     | Tier 1 is made up of generics only. These drugs contain the same active ingredients as their brand-name counterparts.                                                                                                                                                                                                                                                                                          |
| <b>Tier 2 (\$\$)</b>   | Tier 2 is primarily made up of preferred brand name drugs that have no generic equivalents available. These drugs have been selected by your plan because of their overall high value based on a review of the relative safety, effectiveness and cost of the many brand name drugs on the market. Tier 2 may also include some generic drugs that have lower-cost or over-the-counter alternatives available. |
| <b>Tier 3 (\$\$\$)</b> | Tier 3 is primarily made up of preferred specialty drugs and non-preferred brand name and specialty drugs. Tier 3 may also include some generic drugs that have lower-cost or over-the-counter alternatives available.                                                                                                                                                                                         |
| <b>Medical (MD)</b>    | Drug covered under medical benefit and may be obtained at a retail pharmacy.                                                                                                                                                                                                                                                                                                                                   |

**Please note:** Some plans may require you to pay a deductible for prescription medications before copayments and/or coinsurance apply. Refer to your Prescription Drug Brochure for details.

### Maintenance medication opportunities

You can fill a 90-day supply of maintenance medications at retail pharmacies. Ask your pharmacist if your prescription is able to be converted to a 90-day supply to decrease your trips to the pharmacy.

### Mail Order Pharmacy available from Optum Home Delivery

You can use Optum® Home Delivery to have a 90-day supply of maintenance medications delivered to your home. Standard shipping is free. To get started, visit [harvardpilgrim.org/rx](https://harvardpilgrim.org/rx) or call Optum Home Delivery at **(855) 258-1561** (TTY: **711**). Be sure to have your Harvard Pilgrim ID number, prescription number(s) and credit card information ready when you call.

### Request an Exception

If your doctor decides it is medically necessary for you to take a drug not listed, they can submit a coverage request to Harvard Pilgrim through the Medical Review Process. If your doctor wants you to take a medication that your plan doesn't cover or limits, visit [harvardpilgrim.org/rx](https://harvardpilgrim.org/rx) or call Member Services.

## Medical Review

Harvard Pilgrim has pharmacy programs in place to help manage the pharmacy benefit. Requests for medically necessary review for coverage of drugs included in the New-To-Market Drug Evaluation Process (NTM), Prior Authorization Program (PA), Step Therapy Program (ST), or Quantity Limitations Program (QL) should be completed by the physician and sent to Harvard Pilgrim. Drugs excluded under your pharmacy benefit will not be covered through this process. The request must include clinical information that supports why the drug is medically necessary for you. Harvard Pilgrim will approve the request if it meets coverage guidelines. If Harvard Pilgrim does not approve the request, you have the right to appeal. The appeal process is described in your benefit document.

## Glossary of Notes

In this drug list, some medications are noted with letters next to them to help you see which drugs may have coverage requirements or limitations. Your benefit plan determines how these medications may be covered for you.

| Keyword | Description                                                                                                                                                                                                                                                                                                                                    |
|---------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| ACA     | <b>Affordable Care Act.</b> This medication is eligible for \$0 cost share under most benefit plans. Age restrictions may apply.                                                                                                                                                                                                               |
| AL      | <b>Age Limit.</b> Medications may be limited to a certain age.                                                                                                                                                                                                                                                                                 |
| AM      | <b>Affordability Mandate.</b> In accordance with state law under certain benefit plans; copayments or coinsurance for up to a 30-day supply of certain drugs will not exceed a certain dollar amount. Check your benefit documents.                                                                                                            |
| CM      | <b>Cancer Mandate.</b> For plans subject to the cancer mandate, this drug may have a cost share of up to \$200. Please check your benefit document.                                                                                                                                                                                            |
| DIAB    | <b>Diabetes State Mandate.</b> In accordance with state laws under certain benefit plans; member cost sharing for medications and/or supplies used to treat diabetes may not exceed a certain dollar amount. Check your plan documents.                                                                                                        |
| EPI     | <b>Epinephrine State Mandate.</b> In accordance with state law under certain benefit plans; a two (2) pack of covered epinephrine auto-injectors or cartridges may be covered once every Plan Year or Calendar Year with no Member Cost Sharing. Check your plan documents.                                                                    |
| FM      | <b>Fertility Medication.</b> This medication is only covered if your plan includes an infertility benefit. Check your benefit documents. Must use Fuze Health. Not required for Rhode Island Plans.                                                                                                                                            |
| HCD     | <b>High Cost Specialty Drugs.</b> In accordance with state law under certain benefit plans; copayments or coinsurance for up to a 30-day supply of certain high dollar specialty drugs, will not exceed a certain dollar amount. Check your benefit documents.                                                                                 |
| HSA     | <b>HSA Preventive Drug.</b> If your plan includes the Preventive Drug Benefit, covered preventive health drugs will not be subject to your plan deductible. Applicable copayment will apply.                                                                                                                                                   |
| NTM     | <b>New-To-Market Drug Evaluation Process (NTM).</b> This drug is under review by the plan. During the review process, if your physician believes you have a medical need for the New-To-Market drug, your doctor can submit a request for coverage. Drugs approved through the Medical Review Process may be subject to the highest copayment. |
| PA      | <b>Prior Authorization.</b> Some medications require Prior Authorization.                                                                                                                                                                                                                                                                      |
| QL      | <b>Quantity Limit.</b> Medications may be limited to a certain quantity.                                                                                                                                                                                                                                                                       |
| SPP     | <b>Specialty Pharmacy.</b> Must use Optum® Specialty. Specialty Pharmacy Medication Program is not required for Rhode Island plans.                                                                                                                                                                                                            |
| ST      | <b>Step Therapy.</b> Your plan may require that members first try one drug to treat a condition before we will cover another drug for that condition. This ensures that certain medications are used safely and effectively for members in specified age groups.                                                                               |
| WH      | <b>Women's Health.</b> Certain medications may be covered without cost share under Women's Health Preventive Services Initiative. Generics preferred. Check your benefit documents.                                                                                                                                                            |

# General Notice About Nondiscrimination and Accessibility Requirements

**Harvard Pilgrim Health Care and its affiliates as noted below ("HPHC") comply with applicable federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability or sex (including pregnancy, sexual orientation and gender identity). HPHC does not exclude people or treat them differently because of race, color, national origin, age, disability or sex (including pregnancy, sexual orientation and gender identity).**

## **HPHC:**

- Provides free aids and services to people with disabilities to communicate effectively with us, such as qualified sign language interpreters and written information in other formats (large print, audio, other formats).
- Provides free language services to people whose primary language is not English, such as qualified interpreters.

If you need these services, contact our Civil Rights Compliance Officer (see below for contact information).

If you believe that HPHC has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability or sex (including pregnancy, sexual orientation and gender identity) you can file a grievance with:

### **Point32Health Civil Rights Legal Coordinator**

1 Wellness Way  
Canton, MA 02021-1166

866-750-2074, TTY service: 711

Fax: 617-668-2754

Email: **OCRCoordinator@point32health.org**

You can file a grievance in person or by mail, fax or email. If you need help filing a grievance, the Civil Rights Compliance Officer is available to help you. You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights, electronically through the Office for Civil Rights Complaint Portal, available at **<https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>**, or by mail or phone at:

### **U.S. Department of Health and Human Services**
