District of Columbia, Maryland, and Virginia

Marketplace Formulary *Last Update: 10/06/2026*

The formulary is a list of drugs covered by your plan. The preferred drugs in the formulary are chosen by a group of Kaiser Permanente physicians and pharmacists known as the Pharmacy and Therapeutics Committee. The Committee meets regularly to evaluate and select drugs that are safe and effective for our members.

This formulary applies only to outpatient drugs and self-administered drugs. It does not apply to medical service drugs or medications used in inpatient settings or administered in one of the Kaiser Permanente medical centers.

You may have specific exclusions, copays, or coinsurance amounts that are not reflected in the formulary drug list. Please consult your Evidence of Coverage or Membership Agreement for additional information regarding your pharmacy benefits, including any specific limitations or exclusions.

Generic, Brand Name and Specialty Drugs

Kaiser Permanente covers generic, brand name and specialty drugs at the applicable tier copay or cost share.

A generic drug is approved by the Food and Drug Administration (FDA) as having the same active ingredient as the brand name drug.

Brand name drugs are manufactured and sold by the pharmaceutical company that originally researched and developed the drug. When the patent on a brand name drug expires, other pharmaceutical companies may then manufacture and sell the FDA- approved generic version of the drug at lower prices.

Specialty drugs are high cost, prescription medications used to treat serious or chronic medical conditions and require special handling, administration or monitoring.

In most cases, your doctor will prescribe a generic drug if one is available. Generic drugs generally cost less than brand name or specialty drugs.

Using the Kaiser Permanente Formulary List

When you look through the formulary drug listing beginning on page 4, you will see that products available in a generic form are listed by their generic names. Medications that are only available as a brand name product are listed in **BOLD AND ALL CAPITAL** letters, except where multiple branded products exist.

You can search the formulary drug list by using the “FIND” function in Adobe Reader, or by

referencing the therapeutic drug category.

The first column of the chart lists the drug name. Please note that some drugs have multiple dosage forms. Examples of dosage forms are tablets, capsules, creams, injections, etc. Please note that not all dosage forms and strengths for a particular drug listed may be on the same drug tier.
The second column, “Drug Tier” will indicate what tier number the drug is in. Drugs on the Formulary are categorized in one of four tiers.

Tier 1: Most Preferred Generic Drugs, commonly prescribed Generic Drugs
Tier 2: Most Preferred Brand Name Drugs, commonly prescribed Brand Name Drugs and higher cost Generic Drugs
Tier 3: Non-Preferred Drugs
Tier 4: Specialty Drugs

Please remember that this list is subject to change and will be updated from time to time during the year. Any product not found on the list will be considered non-formulary.

Restrictions on medication coverage (Dispensing Limitations)
Some covered drugs may have additional requirements or limits on coverage. Please consult your Evidence of Coverage or Membership Agreement for additional information regarding your pharmacy benefits, including any specific limitations or exclusions.

- **Limited distribution**: Some drugs may be subject to limited distribution or restricted access. A drug that is a limited distribution drug may only be available at one or a limited number of pharmacies.
- **Medical Service Drugs**: Drugs that may be covered under your medical benefit (physician visit or hospital visit). Medical service drugs require administration by a clinician or in a facility. They are not dispensed through the outpatient pharmacy
- **Oral chemotherapy drugs**: Drugs that fall under the District of Columbia and State of Maryland Oral Chemotherapy Parity Act.
- **Prior Authorization**: A review and approval procedure that applies to some outpatient prescription drugs and is used to encourage safe and cost-effective medication use. Prior authorization is generally applied to outpatient prescription drugs that have multiple medical uses, are higher in cost or have a significant safety concern.

  The purpose of prior authorization is to ensure that you receive the right medication for your medical condition. This means that when your physician or authorized provider prescribes a drug that has been identified as subject to prior authorization, the drug must be reviewed by the utilization management program to determine medical necessity before the prescription is filled.

  If a drug requires prior authorization, your prescribing physician or authorized provider must work with us to authorize the drug for your use. Drugs requiring prior authorization have specific clinical criteria, including but not limited to diagnosis of specified condition, laboratory requirements or prescriber specialty, that you must meet in order for the prescription to be eligible for coverage. Refer to the formulary for a complete list of medications requiring prior authorization. Once a prior authorization has been approved for a drug used to treat a chronic condition, no reauthorization for a repeat prescription will be needed for 1 year or for the duration of the standard course of treatment for the chronic condition being treated, whichever is less.
- **Quantity limit**: For certain drugs, Kaiser Permanente Pharmacy and Therapeutics Committee limits the amount of medication dispensed to a certain quantity per copay.
- **Step Therapy Process**: A process that defines how and when a particular outpatient prescription drug can be covered by requiring the use of one or more prerequisite drugs (first line agents), as identified through your drug history, prior to the use of another drug (second line agent). The step therapy process encourages safe and cost-effective medication use. Under this process, a “step”

approach is required to receive coverage for certain high cost medications. This means that to receive coverage, you may first be required to try a proven, cost effective medication before using a more costly medication.

Your prescribing physician or authorized provider should prescribe a first-line medication appropriate for your condition. If your prescribing physician or authorized provider determines that a first-line drug is not appropriate or effective for you, a second-line medication may be covered after meeting certain conditions.

Refer to the formulary for a complete list of medications requiring step therapy

- **Zero Cost Share Preventive Drugs**: Drugs that may be covered at $0 when written on a prescription.

- **Key:** (Refer to "Restrictions on medication coverage" section, above, for definitions of these terms)

LD = Limited Distribution Drugs

OC = Oral Chemotherapy Drugs

QL = A drug with a quantity limit

PA = Prior Authorization

PRV = Zero Cost Share Preventive Drugs

ST = Step Therapy

MSD = Medical Service Drugs

For more information about the Marketplace Formulary Drug List, you may contact Member Services at **301-468-6000** or **800-777-7902 (TTY 711)**. Representatives are available Monday through Friday, 7:30 a.m. until 9 p.m

Nondiscrimination Statement

It is the policy of Kaiser Foundation Health Plan of the Mid-Atlantic, Inc. (Kaiser Health Plan) not to discriminate on the basis of race, color, national origin, sex, age or disability. Kaiser Health Plan has adopted an internal grievance procedure providing for prompt and equitable resolution of complaints alleging any action prohibited by Section 1557 of the Affordable Care Act (42 U.S.C. 18116) and its implementing regulations at 45 CFR part 92, issued by the U.S. Department of Health and Human Services. Section 1557 prohibits discrimination on the basis of race, color, national origin, sex, age or disability in certain health programs and activities. Section 1557 and its implementing regulations may be examined in the office of Kaiser Civil Rights Coordinator, 2101 East Jefferson Street, Rockville, MD 20852, telephone number: 1-800-777- 7902, who has been designated to coordinate the efforts of the Kaiser Health Plan to comply with Section 1557.

Any person who believes someone has been subjected to discrimination on the basis of race, color, national origin, sex, age or disability may file a grievance under this procedure. It is against the law for Kaiser Health Plan to retaliate against anyone who opposes discrimination, files a grievance, or participates in the investigation of a grievance.

Procedure:

- Grievances must be submitted to the Section 1557 Coordinator within (60 days) of the date the person filing the grievance becomes aware of the alleged discriminatory action.

- A complaint must be in writing, containing the name and address of the person filing it. The complaint must state the problem or action alleged to be discriminatory and the remedy or relief sought.

- The Section 1557 Coordinator (or her/his designee) shall conduct an investigation of the complaint. This investigation may be informal, but it will be thorough, affording all interested persons an opportunity to submit evidence relevant to the complaint. The Section 1557 Coordinator will maintain the files and records of Kaiser Health Plan relating to such grievances. To the extent possible, and in accordance with applicable law, the Section 1557 Coordinator will take appropriate steps to preserve the confidentiality of files and records relating to grievances and will share them only with those who have a need to know.

- The Section 1557 Coordinator will issue a written decision on the grievance, based on a preponderance of the evidence, no later than 30 days after its filing, including a notice to the complainant of their right to pursue further administrative or legal remedies.

The availability and use of this grievance procedure does not prevent a person from pursuing other legal or administrative remedies, including filing a complaint of discrimination on the basis of race, color, national origin, sex, age or disability in court or with the U.S. Department of Health and Human Services, Office for Civil Rights. A person can file a complaint of

discrimination electronically through the Office for Civil Rights Complaint Portal, which is available at: https://ocrportal.hhs.gov/ocr/portal/lobby.jsf,or by mail or phone at: U.S. Department of Health and Human Services, 200 Independence Avenue SW., Room 509F, HHH Building, Washington, DC 20201. Toll free#:800-368-1019 TDD: 800-537-7697

Complaint forms are available at: http://www.hhs.gov/ocr/office/file/index.html. Such complaints must be filed within 180 days of the date of the alleged discrimination.

Kaiser Health Plan will make appropriate arrangements to ensure that individuals with disabilities and individuals with limited English proficiency are provided auxiliary aids and services or language assistance services, respectively, if needed to participate in this grievance process. Such arrangements may include, but are not limited to, providing qualified interpreters, providing taped cassettes of material for individuals with low vision, or assuring a barrier-free location for the proceedings. The Section 1557 Coordinator will be responsible for such arrangements.
